

## **Attachment B**

### *Non-Applicability (N/A) of Exemptible BMPs*

To establish that a BMP is not applicable to the district, the Plan should explain the reasons why the BMP does not apply to the district. This justification must be consistent with Section 1 of the Criteria titled, "Describe the District." Examples of N/A for each exemptible BMP are listed below. This list is not all-inclusive.

#### **Section 3. B. Exemptible BMPs for Agricultural Districts**

1. *Facilitate Alternative Land Use* - N/A could include: Districts without irrigable lands that have exceptionally high water duties or whose irrigation does not contribute to significant problems.

2. *Facilitate use of available recycled water that otherwise would not be used beneficially, meets all health and safety criteria, and does not cause harm to crops or soils* - N/A could include: Completely piped systems that do not have delivery constraints.

4. *Facilitate the financing of capital improvements for on-farm irrigation systems* - None identified.

4. *Incentive pricing* - District that receives only class 2 water.

5. a) *Line or pipe ditches and canals* - N/A could include: Completely piped systems, unlined systems or sections or systems which are used as part of a planned conjunctive use program.

b) *Regulatory reservoirs* - N/A could include: Completely piped systems that do not have delivery constraints.

6. *Increase flexibility in water ordering by, and delivery to, the water users within operational limits* - None identified.

7. *Construct and operate district spill and tailwater recovery systems* - N/A could include: Completely piped systems that do not have delivery constraints.

8. *Optimize conjunctive use of surface and ground water* - N/A could include: Districts which do not overlie a useable ground-water basin and thus neither the district nor its customers pump or use ground water.

9. *Automate canal structures* - N/A could include: Completely piped systems that do not have delivery constraints.
